About me

I am a computer engineer with a passion for cloud technology and building innovative solutions. I enjoy learning about different cloud platforms and staying up-to-date with the latest advancements in technology. I have knowledge with different platforms such as AWS, GCP, and Azure, but my primary focus is on AWS. I specialize in optimizing performance, ensuring scalability, and enhancing security within cloud environments..

Experience

Internal IT Internship

July 2024 – September 2024

Carabao Cloud Solutions Inc.

I created profiles for clients and remotely monitored PC statuses to ensure optimal performance and security. By completing courses in cybersecurity, I enhanced my ability to assess and maintain systems effectively, safeguarding against potential threats.

Part Time Video Editor

2023 - 2024

Eye Creatives

I edited videos for international clients, reaching thousands to millions of views across platforms like Instagram and TikTok. I gained valuable experience in content creation and client communication, learning directly from global professionals.

Graphic Artist

2019 - 2023

Freelancer

As a freelance graphic designer, I specialize in creating visually engaging infographics and offer video editing services for international clients. In addition to these services, I handle photo editing projects for government agencies, ensuring high-quality and professional results across all my work.
